

Gulf Select

FUEL INDUCTION SERVICE

The Gulf Select Performance Products in this service group are designed to restore maximum power and performance to your vehicles engine by cleaning combustion by-products and resin deposits from the fuel and intake system helping to eliminate rough idling, hard starting and poor acceleration.

Fuel Service Performance Kits

These performance kits contain selected products that when used in combination provide a powerful cleaning force designed to restore lost power and performance. By attacking stubborn carbon build-up and deposits on fuel injectors, intake valves and throttle bodies on all fuel injected, carbureted spark ignition engines. Packaged in handy, ready to use containers for the serious engine enthusiast who demands performance and convenience

- **Item #GS220 – 2 Part Fuel Kit (kit includes #GS256 and #GS254)**
- **Item #GS230 – 2 Part Fuel Kit (kit includes #GS252 and #GS254)**
- **Item #GS240 – 3 Part Fuel Kit (kit includes #GS252, #GS254, #GS256)**
- **Item #GS260 – 3 Part Fuel Pack Major (kit includes #GS252, #GS254, #GS258)**

Item # GS252 – Complete Induction Combustion Chamber Cleaner

- Effectively cleans intake valves as well as the combustion chamber, piston crowns and fuel injector tips.

Item # GS254 – Tank Boost Fuel System Treatment

- Add contents directly to fuel tank to help improve fuel efficiency, power and performance.

Item # GS256 – Air Intake Cleaner (aerosol)

- Dissolves deposits from the air intake system including throttle body, throttle valve and idle air control valve. Its 360° spray nozzle allows the technician to spray upside down in tight spaces.

Item #GS258 –Top End Fuel System Cleaner (concentrate)

- Super concentrated with powerful detergents that rapidly cleans fuel system including injectors and intake valves. **Gulf Select Top Fuel System Cleaner** works with any pressurized canister tool that delivers product through the fuel rail.
