

Gulf Select

Oil System Kit

(Synthetic)

#GS440

Product Description

Gulf Select Oil System Kit (GS440) is a 2-step service kit that combines two powerful synthetic agents formulated to safely remove varnish, sludge and deposits from internal engine components helping to maximize overall engine performance and extend the life of the engine.

The kit consists of:

- **#GS410 - Synthetic Oil Treatment** is an advanced engine oil blend containing dispersants and cleaning agents that help to dissolve and remove sludge and varnish buildup from internal engine parts.
- **#GS430 – Synthetic Oil System Cleaner Concentrate** is a solvent free cleaner that is safe for engine seals and o’rings. This concentrated cleaner helps to open blocked or restricted oil passages, oil lines and screens, which if blocked, can restrict proper engine lubrication.

Features and Benefits

- Fights varnish & sludge deposits
- Helps to prevent horsepower loss
- Maintains a cleaner engine and prevents excessive engine wear
