

Gulf Select

Drive Line Service

(Differential)

#GS545, #GS595

Product Description

Gulf Select Synthetic Gear Lube is a heavy-duty product designed to provide superior performance and protection in hypoid gear lubricant applications, differentials and some manual transmissions. This product is specially formulated for applications where the manufacturer recommends SAE 75W-90 or SAE 75W-140 API GL-5, MT-1 gear lube.

Features and Benefits

- Reduces friction and wear
- Prevents corrosion
- Provides superior protection under extreme conditions
- Extends driveline component life
