

# Gulf Select

## DIESEL INJECTOR CLEANER

### #GS670

#### Product Description

**Gulf Select Diesel Injector Cleaner** is formulated with powerful detergent additives that are specially designed to clean diesel fuel injectors and restore injector spray pattern efficiency resulting in increased power, improved fuel economy and reduced emissions.

In as little as two hours of normal operation, **Gulf Select Diesel Fuel Injector Cleaner** significantly lowers emissions and improves performance. When used as directed, **Gulf Select Diesel Injector Cleaner** will restore lost power and fuel economy.

#### Features and Benefits

- Cleans Fuel System & Injectors
- Improves fuel combustion for better fuel economy
- Rapid clean-up for diesel and biodiesel fueled engines
- Exceeds the requirements of the Cummins L-10 Superior Injector Deposit Control Test

**Directions:** Use this product with the Gulf Select cleaning equipment, as directed by the equipment operation manual. This product may also be added to any diesel fuel system cleaning equipment provided manufacturer recommendations and operation procedures are followed.
