

Complete Induction Combustion Chamber Cleaner #GS252

Product Description

Carbon deposits can form on the back side of intake valves. This is particularly true on newer Direct Injection Engines. **Gulf Select Combustion Chamber Cleaner** effectively cleans intake valves as well as the combustion chamber, piston crowns, piston ring lands and fuel injector tips.

Features and Benefits

- Removes carbon from the intake valves and combustion chamber
- Improves fuel economy
- Restores lost power
- Eliminates cold carbon knock
- Safely removes moisture in fuel system
- Contains no harmful alcohols
